

*Crown molding cutting made easy!
 Cutting Creative Crown flat back foam crown moldings.
 There are no more need crown molding spring angles.
 No more complex compund miter cuts to make .
 Our crown moldings cut in most positions in most miter saws.*

*Our 3-1/2" crown moldings can normally be cut in the
 right side up or in the upside down position.
 In 10" and 12" miter saws.*

*Our 4-1/2" and 5-1/2" crown moldings can normally be cut in
 the upside down positions in most 12" miter saws.
 You can also cut out moldings flat on the table of the saw.
 Its very simple with our flat back foam crown molding.*

*Examples: A 90 degree corner is two 45 degree cuts.
 A 45 degree corner is two 22.5 degree cuts.*

There are no bevels or spring angles needed with flat crown moldings.
